### SAVE MORE.

### **Final Application Agreement**

The energy optimization measures listed within are being/have been installed in a qualifying time frame, at a qualifying facility and are not for resale. Additional Program terms and conditions can be found in the Policy and Procedures Manual available at dteenergy.com/savenow.

I understand that in the event this Application received a reservation, that reservation is not a guarantee of payment. Incentive payment will be based upon the Final Application meeting the Program terms and conditions, and the availability of funds.

Selected terms and conditions include:

- 1. Final Applications and all required documentation must be received within 60 days of project completion.
- 2. The Program has a limited budget, but is a multi-year Program. Applications will be processed until allocated funds are reserved or spent each Program year.
- 3. All equipment must be purchased and installed prior to submitting the Final Application.
- 4. Applicant agrees to inspection and measurement activities by DTE Energy or its representative of both project payment and equipment installation for up to five years from the date of equipment installation.
- 5. Incentives may be taxable and the Applicant is solely responsible for the payment of any resulting taxes. Incentives will be reported to the IRS, unless the Applicant is exempt.
- 6. The Applicant may be required to refund some or all of the incentives if the measures do not remain (or were not) installed for a period of five (5) years or the end of the product life, whichever is less.
- 7. Materials removed, including lamps and PCB ballasts, must be permanently taken out of service and disposed of in accordance with federal and state laws or regulation and local codes and ordinances. The Applicant is responsible for being aware of any applicable codes or ordinances. Information about hazardous waste disposal can be found at www.epa.gov/wastes.
- 8. For certain measures, the incentive amount will be determined based on the estimated energy savings. The Applicant may be required to provide documentation on energy savings calculations and assumptions. DTE Energy will make the final determination of the energy savings and thus the incentive amount to be paid.
- 9. DTE Energy has no obligations regarding and does not endorse or guarantee any claims, promises, work or equipment made, performed or furnished by any contractors or equipment vendors that sell or install any energy efficiency measures.
- 10. Payment of incentives under the Program and/or evaluation of Applications for incentives shall not deem DTE Energy or any of its affiliates, employees or agents ("DTE Energy Parties") to be responsible for any work completed in connection herewith. Applicant fully releases DTE Energy Parties from any and all claims it may have against DTE Energy Parties in connection with this Application, the incentives or the work performed in connection with them. In addition, Applicant agrees to defend, indemnify and hold DTE Energy Parties harmless from and against any and all claims, losses, demands or lawsuits by any third parties arising in connection with this Application, the payment or nonpayment of incentives or any work performed in connection with them.
- 11. DTE Energy reserves the right to associate with your business and participation in the incentive Program for promotion and advertising purposes. See the Policies and Procedures Manual for more on promotional co-branding
- 12. Applicant acknowledges that Federal Energy Regulatory Commission (FERC) Order issued on June 1, 2012, at Docket No. ER11-4081-000 ("FERC Order") approves of the inclusion of energy efficiency resources as planning resources in a utility's resource adequacy plan (all italicized terms as defined in the FERC Order). Accordingly, Applicant and DTE Energy agree that all such rights afforded with respect to energy efficiency resources, including but not limited to the right to identify them as a planning resource so as to include them in a resource adequacy plan, shall inure exclusively and fully to DTE Energy. Applicant agrees that it will not claim ownership in such energy efficiency resources for purposes of identifying them as a planning resource in accord with the FERC Order or include them in a resource adequacy plan.

I have read and understand the measure specifications and Program Guidelines set forth in the Application and the Program Policy and Procedures Manual and agree to abide by those requirements. Furthermore, I concur that I must meet all eligibility criteria in order to be paid under this Program and not receive incentives from any other utility for the same project.

I certify that the information on this Application is true and accurate. I acknowledge and understand that it is necessary for DTE Energy to store, use and share the information contained in this Application, as well as information collected in connection with this project, including but not limited to my business name, address, account number and energy consumption data ("Customer Data") for various purposes. Therefore, I hereby authorize DTE Energy to collect, store and use the Customer Data for internal purposes and to present me with other energy saving opportunities. I further authorize DTE Energy to share the Customer Data with third party vendors/contractors who are doing work on DTE Energy's behalf.

# Incentive Summary, Final Agreement Information and Account Holder Signature Page

Measure Category	Prescriptive Total (A)	Custom Total (B)	Michigan-Made Total	Multi-Measure Total (A + B )	Multi-Measure Percentage	
Lighting						
HVAC – Electric						
Misc. Electric						
Process Electric						
Food Service – Electric						
HVAC – Gas						
Hot Water & Laundry						
Insulation						
Process Gas						
Boiler/Furnace Tune-Ups						
Food Service – Gas						
Subtotals			C1	D1		D1
20% Multi-Measure Bonus				D2		D2
15% Michigan-Made Bonus			C2			C2
Incentive Subtotal						
Other Special Offers						
Other Special Offer – Code:						
Other Special Offer – Code:						
Other Special Offer – Code:						
Total Incentives Requested						

The figures in this table will self-populate in the electronic version of this Application. In a paper version, the values must be entered manually.

- For the Michigan-Made bonus:
  - 1. By category, enter only those incentives that meet the Michigan-Made criteria and total (C1)
  - 2. Then, multiply the total by .15 and enter into C2 and again in C2 at the far right
- For the Multiple-Measure bonus:
  - 1. Subtotal each category (A+B)
  - 2. Total all categories and enter in D1

- 3. Then, calculate the percentage of each category against the total (divide each category by D1). If no single category is more than 75% of the total, proceed to Step 4; otherwise enter \$0 in D2
- 4. Multiply D1 by .20 and enter into D2 and again in D2 at the far right.

Total all incentives in D1, D2 and C2 and enter in Incentives Subtotal. Enter any other Program Special Offer bonuses where indicated (you must attach the worksheet from each offer) and manually enter the incentive value in the space(s) provided.

**BEFORE YOU SUBMIT:** Review the summary above to ensure all incentive areas reflect the worksheets you've completed in this Application. If you find a blank area that should be filled in, review that worksheet page.

### Lighting Incentive Worksheet

### Compact Fluorescents and LEDs (Incandescent/Halogen to CFL or LED)

Check the **Michigan-Made** box **only** if the piece of equipment is for a full unit replacement and not a retrofit for which you are seeking an incentive, meets the Michigan-Made bonus specifications **and** you can provide the manufacturer affidavit.

Ref #	Equipment Type	Incentive	Unit	# of Units	Total Incentive
7–1	CFL - Screw-in (≤ 31 Watts)	\$1.50	Lamp		
7–2	CFL - Screw-in (> 31 Watts)	\$10.00	Lamp		
7–3	CFL Reflector Flood Lamps	\$10.00	Lamp		
7–4	Compact Fluorescent Fixture	\$22.00	Fixture		
7–5	42W 8 Lamp High Bay Compact Fluorescent Fixture	\$35.00	Fixture		
7–6	LED A-Line Lamp <19 watts	\$12.00	Lamp		
7–7	LED A-Line Lamp ≥ 19 watts	\$15.00	Lamp		
7–8	LED Recessed Down Light	\$15.00	Lamp		
7–9	MR16 LED Lamps	\$6.00	Lamp		
7–10	PAR LED Lamps	\$10.00	Lamp		

### Interior High Performance (HP) and Low Wattage (LW) 4-foot Linear Fluorescents. All lamps are 4ft unless otherwise stated.

Ref #	Equipment Type	Incentive	Unit	# of Units	Total Incentive
7–11	LW T8 (Lamps Only, 4ft Linear or U-Lamp) NOTE: Reservation Application is required for all LW T8 lamp only projects.	\$1.00	Lamp		
7–12	1 Lamp HP T8, replacing T8/T12	\$2.00	Fixture		
7–13	2 Lamp HP T8, replacing T8/T12	\$3.00	Fixture		
7–14	3 Lamp HP T8, replacing T8/T12	\$4.00	Fixture		
7–15	4 Lamp HP T8, replacing T8/T12	\$5.00	Fixture		
7–16	1 Lamp LW HP T8, replacing T8/T12	\$3.00	Fixture		
7–17	2 Lamp LW HP T8, replacing T8/T12	\$5.00	Fixture		
7–18	3 Lamp LW HP T8, replacing T8/T12	\$7.00	Fixture		
7–19	4 Lamp LW HP T8, replacing T8/T12	\$9.00	Fixture		

Qualifying lamps and ballasts can be found at www.cee1.org.

21–8	High Efficiency Clothes Washer (Gas Water Heat, Electric Dryer)	\$50.00	Washer			
21–9	High Efficiency Clothes Washer (Gas Water Heat, Gas Dryer)	\$50.00	Washer			
21–10	Ozone Laundry	\$40.00	lb. Wash Capacity			
21–11	Dry Cleaning Boiler Descale (Kettle-Type Boiler)	\$150.00	Boiler			1
21–12	Dry Cleaning Boiler Descale (Tube-Type Boiler)	\$250.00	Boiler			]

NOTE: Add or insert the measure reference number (left column) to all related specification sheets, invoices and other documentation.

All Measures

Total Hot Water & Laundry Incentives

### Insulation Incentive Worksheet

Check the **Michigan-Made** box **box i** f the piece of equipment is for a full unit replacement and not a retrofit for which you are seeking an incentive, meets the Michigan-Made bonus specifications **and** you can provide the manufacturer affidavit.

Ref #	Equipment Type	Incentive	Unit	# of Units	Total Incentive
22–1	Pipe Wrap - Steam Boiler	\$6.00	Linear Foot		
22–2	Pipe Wrap - Hot Water Boiler	\$4.00	Linear Foot		
22–3	Domestic Hot Water Pipe Wrap	\$2.00	Linear Foot		

#### Greenhouse

**Pipe Wrap** 

Ref #	Equipment Type	Incentive	Unit	# of Units	Total Incentive
22–4	Greenhouse Heat Curtain (\$ 0.20 per Sq. Ft.)	\$200.00	1,000 Sq. Ft.		
22–5	Greenhouse Infrared Film (\$ 0.10 per Sq. Ft.)	\$100.00	1,000 Sq. Ft.		

### Loading Dock Seals

Ref#	Equipment Type	Incentive	Unit	# of Units	Total Incentive	12
22–6	Truck Loading Dock Seals (New Installation) (Reservation Application Required)	\$200.00	Door			
22–7	Truck Loading Dock Seals (Replacement)	\$100.00	Door			
22–8	Truck Loading Dock Leveler Ramp Air Pit Seals (New Installation)	\$100.00	Door			

### **Miscellaneous Gas**

Ref #	Equipment Type	Incentive	Unit	# of Units	Total Incentive
22–9	Flat Roof Insulation (\$ 0.10 per Sq. Ft.)	\$100.00	1,000 Sq. Ft.		
22–10	Attic Roof Insulation (\$ 0.06 per Sq. Ft.)	\$60.00	1,000 Sq. Ft.		
22–11	Wall Insulation (Reservation Application Required)	\$450.00	1,000 Sq. Ft.		
22–12	Pool Covers	\$0.50	Square Foot		

### Process Gas Incentive Worksheet

#### Process Gas

FIUCE	55 0 4 5						
Ref#	Equipment Type		Incentive	Unit	# of Units	Total Incentive	1
22–13	Furnace Tube Inserts		\$75.00	Insert			]
22–14	High Efficiency Process Boiler (Water)		\$2.00	MBH			
22–15	High Efficiency Process Boiler (Steam)		\$2.00	MBH			
22–16	Tank Insulation – 1"	Low Temp (120°F – 170°F)	\$5.00	Square Foot			
22–17	Tarik insulation – T	High Temp (> 170°F)	\$9.00	Square Foot			
22–18	Tank Insulation – 2″	Low Temp (120°F – 170°F)	\$6.00	Square Foot			]
22–19	Tarik Insulation – 2	High Temp (> 170°F)	\$10.00	Square Foot			]
22–20	Air Compressor Exhaust Heat Recovery (	Reservation Application Required)	\$25.00	HP			]

NOTE: Add or insert the measure reference number (left column) to all related specification sheets, invoices and other documentation.

### Boiler/Furnace Tune-Up Incentive Worksheet

### **Tune-up Checklist**

For additional Tune-Ups, complete the quantity information on this page and contact us for the **Addendum** worksheet

Site Name	Date of Tune-up
Manufacturer Type (Hot Wate	er Boiler, High/Low Pressure Steam Boiler, Furnace, RTU)
Model Number	Annual Hours of Operation
Serial Number	Unit Input Capacity (MBH)
Company Performing Tune-up	Technician Performing Tune-up
<ul> <li>Measure post combustion efficiency using electronic flue gas analyzer</li> <li>Adjust combustion air flow and air intake as needed, reduce excessive stack temperatures</li> <li>Adjust burner and gas input, manual or motorized draft controls</li> <li>Clean burners, combustion chamber and heat exchanger surfaces</li> <li>Complete visual inspection of system piping and installation</li> </ul>	<ul> <li>Check safety controls</li> <li>Check adequacy of combustion air intake</li> <li>Check for proper venting</li> <li>Check Draft Control Dampers</li> <li>Clean and inspect burner nozzles</li> </ul>
Include a copy of the combustion analyzer post test (boilers only)	

### **Boiler Tune-Up**

Ref #	Space Heating Boiler Tune-Up	Incentive	Unit	# of Units	Total Incentives
23–1	110 - 500 MBH	\$150.00	Unit		
23–2	501 - 1,200 MBH	\$250.00	Unit		
23–3	>1,200 MBH	\$350.00	Unit		
Ref #	Process Boiler Tune-Up	Incentive	Unit	# of Units	Total Incentives
23–4	< 3,000 MBH	\$350.00	Unit		
23–5	> 3,000 MBH	\$1,000.00	Unit		
Ref #	Domestic Hot Water Tune-Up	Incentive	Unit	# of Units	Total Incentives
23–6	≥ 199 MBH	\$75.00	Boiler		

### Furnace/RTU Tune-Up

Ref #	Equipment Size	Incentive	Unit	# of Units	Total Incentives
23–7	40 - 300 MBH	\$50	Unit		
23–8	301 - 500 MBH	\$100	Unit		
23–9	>500 MBH	\$150	Unit		

NOTE: Add or insert the measure reference number (left column) to all related specification sheets, invoices and other documentation.

10312013 Total Boiler/Furnace Tune-up Incentives

All Measures

### Food Service – Gas Incentive Worksheet

Check the **Michigan-Made** box **bound** if the piece of equipment is for a full unit replacement and not a retrofit for which you are seeking an incentive, meets the Michigan-Made bonus specifications <u>and</u> you can provide the manufacturer affidavit.

Ref #	Equipment Type	Incentive	Unit	# of Units	Total Incentive	12
24–1	ENERGY STAR® Steam Cookers (5 Pan)	\$750.00	Cooker			
24–2	ENERGY STAR® Steam Cookers (6 Pan)	\$900.00	Cooker			

#### **Ovens**

**Steam Cookers** 

Ref #	Equipment Type	Incentive	Unit	# of Units	Total Incentive	
24–3	ENERGY STAR® Convection Ovens	\$300.00	Oven			] [
24–4	Combination Ovens	\$900.00	Oven			
24–5	Rack Oven Single	\$400.00	Oven			
24–6	Rack Oven Double	\$800.00	Oven			]

#### **Fryers/Griddles**

Ref #	Equipment Type	Incentive	Unit	# of Units	Total Incentive	1
24–7	ENERGY STAR® Fryers	\$225.00	Fryer			
24–8	Large Vat Fryer	\$300.00	Fryer			
24–9	ENERGY STAR® Griddles	\$200.00	Griddle			

### **Miscellaneous**

Ref#	Equipment Type	Incentive	Unit	# of Units		Total Incentive	12
24–10	Pre-Rinse Sprayers (Gas Water Heat)	\$30.00	Sprayer				
24–11	Night Covers (Vertical)*	\$0.75	Linear Ft. x Hrs/Day	Ft.	Hrs.		]
24-11	Night Covers (vertical)	\$0.75	Linear FL X HIS/Day				

\* To calculate night cover incentive, multiply incentive x linear ft x hrs that night cover is used per day. May also be eligible for electric incentives for DTE Energy electric customers.

#### Controls

Ref#	Equipment Type	Incentive	Unit	# of Units	Total Incentive	1
24–12	Commercial Kitchen Ventilation Hood with Demand Control	\$0.25	CFM			

NOTE: Add or insert the measure refe	erence number (left column) to al	I related specification sheets,	invoices and other documentation.

Total Food Service – Gas Incentives

### **Custom Measures Worksheet Instructions**

Use this information to help you complete your Custom Incentive Worksheet on the following page(s).

- 1. For each individual type of equipment, use a separate "Item" box. For example: Do not combine different types of lighting under one item.
- 2. If you have a lighting project: Before you begin the Custom portion of your Application, use our "Prescriptive or Custom?" worksheet (Page 26) to determine whether your project qualifies for a custom Application or should be submitted as a Prescriptive measure. Also, contact us if you have questions about how to calculate your "Before" and After" retrofit operating hours; or how to calculate your gas savings, which must be entered manually on the custom page (in the electronic version, the Application will calculate electric savings).
- 3. Under Before Retrofit and After Retrofit: Be as specific as possible with your description and quantities. This includes, but is not limited to: quantity, name, manufacturer, model number, size (ex: hp or kW or Btu/hr) for the existing and new equipment, as well as any other information that can help calculate the energy used by the equipment. Write the "Reference Number" for each item on all specification sheets and invoices related to that specific item and attach to your Final Application.
- 4. Under "Hours of Operation" for both "Before" and "After" retrofit, provide a documented method for arriving at these figures. Submit your method of calculation with this Application.
- 5. Insert the KW for the equipment for both "Before" and "After" retrofit.
- Under Your Current Energy Cost (\$ per unit), enter your average costs for the energy source – electricity, natural gas or both – that your measure will be saving. To determine your current annual cost for each energy source, use the formulae at right: NOTE: Your natural gas bill is calculated in units of Ccf and must be converted to Mcf. The conversion formula is 10 Ccf. 1 Mcf and here here incorrected it

Your Current		Sum of 12 consecutive monthly utility bills for electricity (\$)
Electricity Costs	=	Sum of electricity used during the same 12 consecutive months as above (kWh)
Your Current		Sum of 12 consecutive monthly utility bills for natural gas (\$)
Natural Gas Costs	=	Sum of natural gas used during the same 12 consecutive months as above (Ccf) X 1 Mcf/10 Ccf

formula is 10 Ccf = 1 Mcf and has been incorporated into the above equation for you.

7. Next, separately calculate your **Annual Electric Savings** by using the following process. If you are using the electronic version, this will be calculated for you):

a) Enter the "Before" hours
b) Enter the "Before" KW
c) Multiply A x B
d) do the same for "After"
e) Subtract the new from the old.

This is the **Annual Electric Savings** to be entered on the form. For complex projects, provide a separate analysis showing how you determined the energy savings or contact us for assistance.

- 8. Next, separately calculate your **Annual Natural Gas Savings** by Mcf (if applicable). Methods for calculating natural gas savings may vary. If possible, use the following process:
  - a) Show the Mcf used by the existing piece of equipment by providing 12 months of natural gas bills, metered data or a calculation, then:
  - b) Provide a calculation of the expected Mcf of the new equipment, then:
  - c) <u>Subtract</u> the new from the old.

This is the Annual Natural Gas Savings to be entered on the form.

- If you're using the interactive version of this Application, the Calculated Incentive will be entered for you. If you are using a paper version, determine your Calculated Incentive for each measure by multiplying the Annual Electric Savings by \$0.08/kWh and the Annual Natural Gas Savings by \$4.00/Mcf.
- 10. Next, enter the Measure Cost. This is the cost of implementing a measure less any costs incurred to achieve non-energy related project benefits. Only costs associated with the rebated energy savings measure should be included in the Measure Cost (this cannot include internal labor cost), which is the basis for determining the simple payback period for custom measures, and is defined as either:
  - a) For end-of-life equipment replacement measures: the cost difference between equipment meeting Program efficiency criteria and equipment meeting the minimum efficiency allowable by code or industry standard; or
  - b) For retrofit, early replacement and new technology measures: the cost of new equipment, components or materials added to existing equipment for the purpose of improving its energy efficiency.
- 11. If you're using the interactive version of this Application, the **Simple Payback Period** for each fuel type will be entered for you. If you are using a paper version, use the formulae shown on the worksheet pages to determine the payback by fuel type.

Simple Payback Period		Measure Cost
	=	(Annual kWh Saved x Electricity Cost) + (Annual Mcf Saved x Natural Gas Cost)

- 12. If you're using the interactive version of this Application, the **Total Calculated Incentives** at the bottom of the form will be entered for you. If you're using the paper version, first <u>total</u> the **Measure Cost** for all measures and enter that value in **Aggregate Measures Cost**. Then <u>total</u> all the individual measure **Calculated Incentives** and enter that in **Total Calculated Incentives**.
- 13. Total Awarded Incentives are calculated at no more than 50% of the respective Measure Costs for electric and gas items.

IMPORTANT: Check the appropriate Category box (Lighting, HVAC-Gas, Process-Electric, etc.) for each item you list on the Custom worksheet(s).

Custor

### Prescriptive or Custom Incentive Worksheet Prescriptive or Custom?

### Where does your lighting project fall?

Does your lighting project call for a Custom calculation — or does it fall within our Prescriptive measures?

To answer that question, follow these instructions:

Step 1:

Do the type of fixtures in your project match a Prescriptive measure in our Application?

□ No: Submit it as a Custom measure □ Yes: Continue to Step 2.

### Step 2:

- a. Enter your fixture "Before Retrofit" quantity (the existing condition) in the box below.
- b. Enter your fixture "After Retrofit" quantity (the new condition) in the box below.
- c. Follow the instructions in the orange box.

Enter "Before Retrofit" fixture quantity:	
Enter "After Retrofit" fixture quantity:	
Follow these instructions:

### To submit your Reservation Application\*

### 1. Complete the Application (Pages 2-4).

- a. Ensure that you have completed the Reservation Application checklist (Page 2).
- b. Ensure that you have completed the Customer information (Page 3).
- c. Ensure that you have completed the Contractor and, if applicable, Third Party Payment information (Page 4).
- 2. Complete all relevant worksheets for your project. BEFORE YOU SUBMIT: If the figure at right does not match the incentives you expected to request, please review your worksheets and the summary page (Page 6).

**Total Incentives Requested** 

**Total Incentives Requested** 

There are values entered a Custom Item without a Category selected. You MUST select a Category to receive an incentive

### 3. Print and mail your Reservation Application to:

**DTE Energy's Energy Efficiency Program for Business** P.O. Box 11289 Detroit, MI 48211 or Fax to: 877.607.0744

٥r

Submit electronically by clicking here

\* A Reservation Application may not be required for your project, but is strongly encouraged to set aside funds. Submission of a Reservation Application does not guarantee that funds will be available.

### To submit your FINAL Application

- 1. Complete or confirm all information in on Pages 2-4.
- 2. Complete and have account holder sign Final Application Agreement (Page 5)
- 3. Complete or confirm all relevant worksheets for your project. **BEFORE YOU SUBMIT:** If the figure at right does not match the

incentives you expected to request, please review your worksheets and the summary page (Page 6).

4. Print and mail your FINAL Application to:

```
DTE Energy's Energy Efficiency Program for Business
P.O. Box 11289
Detroit, MI 48211
```

or

Fax to: 877.607.0744

or

Submit electronically by clicking here

Mail, fax or email all manufacturers' specifications, detailed invoices and other supporting documents to our office. In your mailing, on your cover sheet or in your subject line, please include the customer name and project number: DTE-(year)(5-digit number). If you don't have a project number, make sure you enter your customer name.
